**Subject:** Peterson Motion to Compel

Scott,

I called you yesterday afternoon to discuss your e-mail to us regarding our Motion to Compel against Peterson. You complained that we had failed to confer before filing the Motion. You were not in so I left a message inviting you to call me back so we could talk about it. Since I had made repeated attempts without success during the deposition to resolve the disputes we were having regarding the witnesses' preparedness to testify on the issues we cited in our notice, and regarding your instructions to the witness not to testify on certain matters, I was surprised to learn that you wanted to confer further. Please call me back so that we can do that, or let me know when you are available and I will call you.

Thanks.
